Don't settle for second best...

Choose OE and trust that you're ready for the future

When you buy from OE you're preparing for the future. With USB Power Delivery just round the corner, why buy something that can't be upgraded easily and cost effectively? With PANDA or POLARICE you can upgrade the USB charger in situ without an electrician. While you're at it you could change the colour of the unit!

Don't think short term - think of the future.
