

# steel cable trays

## CTK

Versatile wire cable tray that allows easy lay-in routing of power and data cabling. Provides a mounting location for power and data modules where required. May be mounted under the work surface, on the modesty panel, or on a screen, using easy-fit brackets. Allows cable segregation in accordance with BS6396.

Available in silver (Bright Zinc Plated)  
Available in lengths of:  
800mm, 1200mm, 1400mm  
With 3 height settings

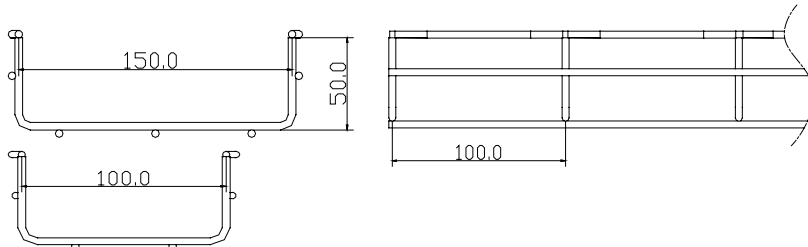

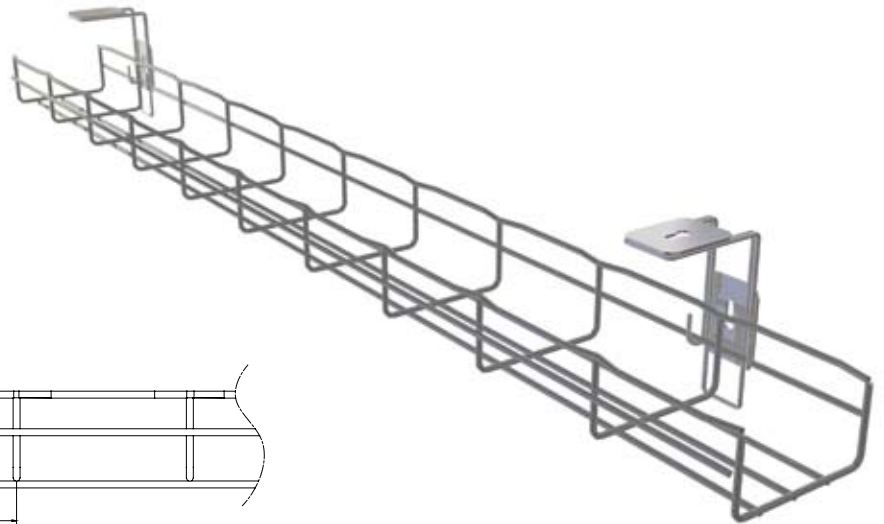

**Universal cable tray bracket** fits both CT and CTK. The bracket can be screwed to the underside of the desk or the modesty panel and allows both cable trays to be height adjustable.

**Universal Cable Tray Bracket**

## CT

**Wire Cable Tray** for desks without a built in cable management system. High volume wire cable tray is extremely economical and versatile. Allows cables and sockets boxes to be arranged, fixed and accessed easily. Easy and economical to install using the combined side and top mounting brackets. Cable trays have the added advantage of being cable dump and routing facility for excess cable from appliances.
